Limestone University

BSN Program Handbook

Academic Year 2022-2023

Preface

The BSN Program Handbook is the official policy manual for the Limestone University BSN and RN-BSN Programs. Its purpose is to provide a reference for the program's mission, goals, structure, requirements, policies, academic information, and available resources for students. Comprehensive university policies and procedures are found in the Limestone University Academic Catalog. The handbook is in effect at the time of publication, however is not a contract between the student and university. Limestone University reserves the right to make changes to this handbook as necessary. The electronic version should be consulted as a primary reference as it is updated more frequently.

Limestone University is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACS-COC) to award associate, baccalaureate, and master's degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033 or call 404-679-4500 for questions about the accreditation of Limestone University. All other inquiries about the University should be directed to Limestone University, 1115 College Dr. Gaffney, SC 29340 or 864-864-7151.

The RN-BSN program at Limestone University is accredited by the Commission on Collegiate Nursing Education (CCNE) located at 655 K Street, NW, Suite 750, Washington, DC 20001. Phone (202) 877-6791.

Welcome Message

Welcome to Limestone Nation! We are pleased you have chosen Limestone to complete your Bachelor of Science in Nursing. Our mission is to challenge students to become critical thinkers and effective communicators who are prepared for responsible citizenship, successful careers, and graduate study. As nurses, these qualities are essential to our practice. Our goal is to provide quality coursework necessary for nurses to work in any setting, who are able to successfully navigate the challenges inherent in the care of patients, families, and communities. I charge you to be active participants in your education, communicate with your faculty regularly, and model professionalism.

My former dean and mentor once shared this quote with me. “Once the mind has been opened to new ideas, it can never return to its original size” (adapted Oliver Wendell Holmes). I hope it inspires you to value and love the power of education.

Amber Williams, DNP APRN FNP-BC, RNC-MNN

Director of Nursing
Associate Professor

Program Accreditation Statements

Limestone University is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACS-COC) to award associate, baccalaureate, and master's degrees. Contact SACS-COC at 1866 Southern Lane, Decatur Georgia, 30033-4097 or call 404-679-4500 for questions about the accreditation of Limestone University.

The RN-BSN program at Limestone University is accredited by the Commission on Collegiate Nursing Education (CCNE) located at 655 K Street, NW, Suite 750, Washington, DC 20001. Phone (202) 877-6791.

Limestone University Mission Statement

The mission of Limestone University is to educate students from diverse backgrounds in the liberal arts and selected professional disciplines. By providing degree programs throughout South Carolina and by way of the Internet, Limestone University offers opportunities for personal and professional growth including to individuals who may find access to higher education difficult.

In a nurturing, supportive environment based on Christian ideals and ethical principles, students are challenged to become critical thinkers and effective communicators who are prepared for responsible citizenship, successful careers, and graduate study.

The University's faculty and staff, academic and co-curricular programs, financial resources, and support services are dedicated to an educational climate that upholds high academic standards and fosters respect for learning and beauty, creativity and hard work, tolerance and personal integrity, vigorous activity and spiritual reflection.

Updated 3/4/2020

Nursing Program Mission Statement

Inspired by the university's mission to educate students from diverse backgrounds and committed to the health of citizens, the mission of the nursing program is therefore to support and prepare professional nurses who are able to:

1. Use critical thinking in decision making activities;
2. Promote health and wellness to diverse individuals, families, and communities;

3. Demonstrate incorporation of professional standards, lifelong learning, advocacy, and compassion into nursing practice.

Nursing Program Vision

Vision: To meet the needs of our communities and profession by providing a quality innovative higher education experience.

Nursing Program Goals

Goals specified by the Nursing Program are reviewed and updated annually. These goals provide direction for the program and the college.

1. Recruit and retain well-qualified students
2. Recruit and retain well-qualified faculty
3. Maintain national accreditation through CCNE
4. Utilize best practice principles of learning theory in courses
5. Prepare professional nurses with the essential knowledge, skills, and attitudes to improve health
6. Increase the number of BSN and MSN-prepared nurses locally

Updated August 2022.

Nursing Program Student Learning Outcomes

After completing the BSN program, graduates will be able to:

1. Graduates will demonstrate critical thinking that integrates a liberal arts foundation, theory, evidence-based practice, and ethical decision making in the promotion of health and culturally competent care of diverse individuals, families, and groups across the lifespan.

2. Graduates will use nursing knowledge and critical thinking to inform clinical judgement in the provision of safe, quality, equitable, and compassionate person-centered care.
3. Graduates will evaluate data and social determinants of health to apply population health concepts and advocate for optimal health in diverse populations.
4. Graduates will demonstrate an understanding of the research process, how to evaluate the quality of evidence, and communicate findings.
5. Graduates will articulate an understanding of systems & systems processes across the continuum of care necessary to advocate for & coordinate health policy.
6. Graduates will demonstrate effective communication and collaboration with interprofessional healthcare team members, individuals, families, groups, and communities.
7. Graduates will utilize patient care technologies and information systems to support communication and decision-making for nursing practice.
8. Graduates will apply principles of professionalism and leadership to develop an ethical, accountable, inclusive, and competent nursing identity.

Reviewed April 10, 2020, August 2021, August 2022

ANA Code of Ethics

All professional nurses are expected to behave ethically and provide ethical care. The application of ethical behavior extends to colleagues, peers, supervisors, subordinates, and clients. Our profession uses The American Nurses Association

provides the Code of Ethics for nurses as a guide. ANA Code of Ethics with Interpretive Statements (2017). <https://www.nursingworld.org/coe-view-only>

Social Media

According to The Nurse's Guide to use of Social Media, ([NCSBN, 2018](#)), "Improper use of social media by nurses may violate state and federal laws established to protect patient privacy and confidentiality. Such violations may result in both civil and criminal penalties, including fines and possible jail time. A nurse may face personal liability and be individually sued for defamation, invasion of privacy or harassment. Particularly flagrant misconduct on social media websites may also raise liability under state or federal regulations focused on preventing patient abuse or exploitation." The liability also applies to nursing students who must understand the concepts of privacy and confidentiality as well as steps to safeguard that trust.

"With awareness and caution, nurses can avoid inadvertently disclosing confidential or private information about patients. The following guidelines are intended to minimize the risks of using social media:

- Nurses must recognize that they have an ethical and legal obligation to maintain patient privacy and confidentiality at all times.
- Nurses are strictly prohibited from transmitting by way of any electronic media any patient-related image. In addition, nurses are restricted from transmitting any information that may be reasonably anticipated to violate patient rights to confidentiality or privacy, or otherwise degrade or embarrass the patient.

- Nurses must not share, post or otherwise disseminate any information or images about a patient or information gained in the nurse/patient relationship with anyone unless there is a patient care-related need to disclose the information or other legal obligations to do so.
- Nurses must not identify patients by name, or post or publish information that may lead to the identification of a patient. Limiting access to postings through privacy settings is not sufficient to ensure privacy.
- Nurses must not refer to patients in a disparaging manner, even if the patient is not identified.
- Nurses must not take photos or videos of patients on personal devices, including cell phones. Nurses should follow employer policies for taking photographs or videos of patients for treatment or other legitimate purposes using employer-provided devices.
- Nurses must maintain professional boundaries in the use of electronic media. Like in-person relationships, the nurse has an obligation to establish, communicate and enforce professional boundaries with patients in the online environment. Use caution when having online social contact with patients or former patients. Online contact with patients or former patients blurs the distinction between a professional and personal relationship. The fact that a patient may initiate contact with the nurse does not permit the nurse to engage in a personal relationship with the patient.¹
- Nurses must consult employer policies or an appropriate leader within the organization for guidance regarding work related postings.

- Nurses must promptly report any identified breach of confidentiality or privacy.
- Nurses must be aware of and comply with employer policies regarding use of employer-owned computers, cameras and other electronic devices, and use of personal devices in the workplace.
- Nurses must not make disparaging remarks about employers or co-workers. Do not make threatening, harassing, profane, obscene, sexually explicit, racially derogatory, homophobic or other offensive comments.
- Nurses must not post content or otherwise speak on behalf of the employer unless authorized to do so, and must follow all applicable policies of the employer“ (NCSBN, 2018, pp12-13).

Nursing students are expected to behave ethically and follow these guidelines related to social media use. Breaches may result in disciplinary action by the program.

Civility and Professional Conduct

All students are expected to behave professionally in the classroom, clinical, and workplace as a representative of Limestone University and the nursing profession.

Expected behaviors include:

- Active participation in courses
- Timely completion and submission of assignments
- Civil and respectful communication in any form
- Prompt communication with course instructors as necessary
- Maintenance of confidential information
- Academic and professional integrity
- Professional appearance and proper identification when representing Limestone University as a nursing student

Academic Responsibility

It is the responsibility of every student to be truthful, avoiding dishonesty, deceit, or fraud of any type with regard to academic work. “Honesty in personal and academic matters is a cornerstone of life at Limestone University. Students are expected to achieve on their own merits and abilities, to exercise integrity in all affairs, and to refrain absolutely from lying, cheating, and stealing” ([Gaslight student handbook](#)). Any violation or assistance of others to violate academic responsibility shall be subject to consequences outlined in the Academic Catalog related to academic misconduct.

Limestone University Honor Pledge

I agree to refrain from academic misconduct, as defined in Section III of Limestone University’s Policies and Procedures for Academic Conduct, which is available in The Gaslight Handbook and the Office of Student Life. I further understand that there are serious consequences for academic misconduct, outlined in Section IV of Limestone University’s Policies and Procedures for Academic Conduct.

Academic Misconduct

1. Academic misconduct may include but is not limited to the following:
2. Plagiarism, or the failure to properly credit the work of another person, thereby allowing others to assume that the work is original,
3. Copying another student’s work,
4. Collaborating by allowing another student to copy work which has been created by the collaborating student himself/herself,
5. Purchasing a paper from services or from other students and submitting it as one’s own work,
6. Submitting work as the student’s own which has been created, in part or wholly, by another individual
7. Doing work for someone else and submitting the work under a name other than your own,
8. Cheating:
 - Copying from the paper of another student.
 - Allowing other students to copy from work that is not their own or aiding them in doing so.
 - Referring to any materials that the instructor has not specially authorized for use during a test or assignment.

- Inappropriately obtaining the contents of an examination.

ANA Standards of Nursing Practice

The scope and standards of practice guide and inform nursing practice for any level, setting, population focus, or specialty. The standards should be reviewed and useful throughout your nursing career. <https://www.nursingworld.org/nurses-books/nursing-scope-and-standards-of-practice-3rd-ed/>

The Essentials: Core Competencies for Professional Nursing

Education (ANCC,2021)

These ten (10) Domains for Nursing and Concepts guide the competency-based curriculum for baccalaureate and masters prepared nurses.

Domain 1: Knowledge for Nursing Practice

Domain 2: Person-Centered Care

Domain 3: Population Health

Domain 4: Scholarship for Nursing Practice

Domain 5: Quality & Safety

Domain 6: Interprofessional Partnerships

Domain 7: Systems-Based Practice

Domain 8: Informatics and Healthcare Technologies

Domain 9: Professionalism

Domain 10: Personal, Professional, and Leadership Development

Concepts integrated within the essentials

Clinical Judgment

Communication

Compassionate Care

Diversity, Equity, and Inclusion

Ethics

Evidence-based Practice

Health Policy

Social Determinants of Health

Pre-licensure BSN Program Admission Requirements

These admission requirements pertain to the 2022-2023 academic year. Limestone University [Admissions policy](#) as stated in the Academic Catalog. Pre-licensure nursing students are considered traditional students, international, or transfer students and follow [undergraduate admissions](#) for the university as provided on the website. Students enter Limestone as Health Science majors with a pre-nursing concentration and follow a pre-nursing course pathway.

Admission to the Professional Clinical Cohort

Clinical cohorts begin annually in the fall after successfully completing the Health Science: pre-nursing general education curriculum (Semesters 1-4).

Progression criteria include:

- Currently enrolled Limestone Student
- Successful completion of pre-nursing general education coursework (semesters 1-4) for Health Sciences pre-nursing major with a C or better in courses
- Minimum cumulative GPA of 2.8
- Submit completed application to Clinical Cohort by March 1 of 4th semester.
- TEAS test completed by March 1

TEAS testing information can be found at <https://atiteas.info/> Students are allowed 2 attempts to take the TEAS test annually for admission. If, after the first attempt, a Proficient score is not achieved, students must do the recommended remediation to be able to test again. If, after 2 attempts a proficient score is not achieved, students are highly encouraged to remediate again while waiting for the next clinical cohort admission cycle. TEAS tests will be offered on campus twice in early spring (January and February). Specific dates TBD and will be posted by December. Cost of the TEAS test is TBD and will be the responsibility of the student.

Letters of pre-selection acceptance to the clinical cohort will be emailed to students' Limestone University emails by March 15. Once pre-selected to the clinical

cohort, students must purchase a Background check through Castlebranch and submit a clear Background Check by April 15. Upon a clear background check and successful completion of the remaining pre-nursing & general education courses, the major will be changed from Health Sciences Pre-Nursing Concentration to Bachelor of Science in Nursing (BSN). BSN students must attend a mandatory orientation in late April (date to be determined annually). Completion of the remaining health requirements in Castlebranch for clinical are by June 30. Requirements include:

- Purchase Castlebranch account and complete all health requirement documentation and drug screen to participate in clinical facilities
- CPR certification - BLS (Basic Life Support) for Healthcare Providers through American Heart Association. Must NOT expire *during* the academic year.
- Order uniforms, name tags, nursing kit during orientation

Failure to complete any of these requirements by the due dates will result in forfeiture of your seat.

Students accepted into the clinical cohort must abide by the clinical requirements for each clinical facility that they may attend throughout the remainder of the program. This includes (but is not limited to) a clear background check, fingerprinting, drug screening, and all immunization requirements. Failure to abide by these requirements will result in a forfeiture of their spot in the program

There are additional fees associated with the nursing program that will be added to tuition bills each semester as lab supply fees and ATI package.

BSN Program Clinical Cohort Start Cycles

The clinical cohort courses for NU courses begins each year in the Fall.

Progression in Pre-Licensure Nursing

Students must pass all NU nursing courses with a minimum of a “C” grade. If students do not pass a NU clinical course with a grade of “C” or higher, the course must be repeated before continuing the clinical progression as most clinical courses are sequential and build on the previous courses. Students whose GPA falls below the 2.8 cumulative minimum, will be on probation status within the program until they have successfully repeated any NU clinical course(s) with less than “C”. Students whose GPA falls below the qualitative minimums set by the University will follow University procedure for probation and suspension from the University.

Students only have 1 attempt to repeat a course. IF the second attempt at a course is unsuccessful, the result is dismissal from the BSN program.

Note: failure to progress may extend program length. Clinical courses are taught once per year.

RN-BSN Program Admission Requirements

These admission requirements pertain to the 2022-2023 academic year. RN-BSN students are considered transfer applicants and follow the procedures for admissions outlined by [Undergraduate Admissions](#) policy. Transfer requirements include: students who have previously attended a regionally accredited college or university:

- you need at least 12 hours of college credit to apply in this category; if you have less than 12 hours, you should apply as a FRESHMAN (see above);
- you must have a minimum cumulative grade point average of 2.0 on a 4.0 scale;
- you must be in good standing at the last institute you attended;
- we will need your SAT or ACT scores unless you are 21+ years of age, are in the military, or are transferring 12+ credits; we will need official transcripts of all previous college studies;

- to receive a Limestone University baccalaureate degree, you must earn a minimum of 31 semester hours as a Limestone student.

Specifically for RN-BSNs students, the additional requirements below must be met for admission:

- Completion of an Associate Degree or diploma in Nursing from an accredited US program of nursing
- Proof of active, unencumbered nursing RN license
- Completed application to Limestone University
- Application fee of \$25 (waived if application completed online or if completed while at time of visit to Limestone University)
- Official transcripts from all post-secondary schools
- 1 letter of recommendation from a nurse with at least a BSN
- Minimum cumulative collegiate GPA of 2.0

Requirements after admission.

- Current BLS (Basic Life Support) CPR certification- American Heart for Healthcare Providers. Must remain current through the clinical experience / cannot expire during clinical experience
- Background check clearance prior to practicum experiences
- Submission of negative urine drug screen prior to practicum experiences
- Completion and maintenance of clinical immunization requirements as required by facilities where students complete clinical practicums for NU 410 and NU 420.
- Proof of current health insurance coverage and liability insurance coverage are required for clinical courses NU 410 and NU 420.

Once admitted, a block transfer of 30 credit hours from their Associate Degree nursing program will be granted after successful completion of NU courses. Up to 66 credit hours of applicable coursework may be applied to RN-BSN degree plan.

RN-BSN Program Cohort Start Cycles

Fall – Term 5 (August)

Spring – Term 2 (March)

- Start cycles for RN-BSN program are dependent on full cohort enrollment.

Progression

RN-BSN students must pass all nursing courses with a “C” grade throughout the program. If students do not pass a nursing (NU) course with a “C”, or fall below the qualitative limits set by the University, they will be on probation status until they have successfully repeated that course. Only one attempt is given to repeat a NU course. More than 2 grades below “C” will result in dismissal from the RN-BSN program.

Students must maintain active RN licensure throughout the program. A lapsed license will result in the student being dropped from all courses until evidence of RN licensure renewal is provided.

Adherence to the South Carolina Nurse Practice Act is required. Failure to comply with practice standards will result in review and action by the university and could result in dismissal from the nursing program.

Advisement

All nursing students should be advised by assigned nursing advisors or nursing faculty. Appointments should be scheduled with your assigned nursing advisor prior to enrolling. Registration is done by the semester so you will be advised and registered for 2 terms at a time. Student will not be allowed to register without the release from their faculty advisor.

BSN Course Descriptions

No.	Course Title	Course Description	
NU 201	Nutrition for healthcare professionals	Foundational nutrition concepts will be explored and applied to health and human disease processes and treatment. Nutrition counseling is part of a nurse's role in effectively educating patients across the lifespan. Pre-requisites: BI 101 or 110 or special permission	3
NU 307	Professional Nursing Roles & Trends	This course examines the evolution and future of professional nursing roles, introduction to nursing theories, nursing science, and nursing processes. The course also examines factors influencing nursing practice, interprofessional communication and collaboration, as well as current trends. This	3

		course is designed for the pre-licensure nursing student. Pre-requisites: progression into pre-professional clinical cohort	
NU 308	Critical & Conceptual Thinking	This course will outline how nursing students learn to think critically. It also introduces nursing concepts that will guide nursing diagnoses, planning, interventions, and evaluation throughout practice. Pre-requisites: progression into pre-professional clinical cohort	2
NU 312	Pathophysiology	This course emphasizes the mechanisms and manifestations of disease and disorders, recognition of symptomatology, and recommended nursing and pharmacological interventions through a conceptual approach. This course is designed for the pre-licensure nursing student. This course used ATI package to supplement curriculum. Pre-requisites: progression into pre-professional clinical cohort	3
NU 313	Pharmacology foundations	This course introduces students to foundational pharmacology concepts including pharmacodynamics, pharmacokinetics, classification of drugs, and basic medication calculations. This is a core nursing course. This course used ATI package to supplement curriculum. Pre-requisites: progression into pre-professional clinical cohort	1
NU 315	Physical Assessment & Health Promotion	This course focuses on the comprehensive health and physical assessments of diverse clients across the lifespan, communicating findings, and promoting health and wellness to individuals, families, and communities. A practicum is included. This course used ATI package to supplement curriculum. Passing for NU courses requires a C or higher grade. Pre-requisites: progression into pre-professional clinical cohort	3
NU 321	Foundational Nursing concepts	This course examines foundational nursing concepts and skills necessary for beginning nursing practice. Passing for NU courses requires a C or higher grade. This course used ATI package to supplement curriculum. Pre-requisites: progression into pre-professional clinical cohort	4
NU 310	Information management & healthcare technologies	This course will explore information and communication technologies and informatics processes utilized in the provision of nursing care and decision making. Pre-requisites: progression	3

		into pre-professional clinical cohort or RN-BSN student	
NU 331	Concepts of health & illness with individuals	This course will delve into nursing concepts, skills and attitudes necessary for caring for effective patient centered care to individuals. Passing for NU courses requires a C or higher grade. This course used ATI package to supplement curriculum. Pre-requisites: pre-professional clinical cohort; successful completion of semester 1 NU courses with a C or better (NU 315, 321, 308, 307, 312, 313)	5
NU 332	Concepts of health & illness with families	This course will explore concepts and skills pertinent to caring for childbearing families and their children and will explore application of nursing knowledge, skills, and attitudes to provide patient centered and effective nursing care. This course used ATI package to supplement curriculum. Passing for NU courses requires a C or higher grade. Pre-requisites: pre-professional clinical cohort; successful completion of semester 1 NU courses with a C or better (NU 315, 321, 308, 307, 312, 313)	4
NU 314	Pharmacology interventions	This course provides a continuation of pharmacological concepts across the lifespan to treat medical conditions, including medical calculations for specific populations & delivery methods. This course used ATI package to supplement curriculum. Pre-requisites: progression into pre-professional clinical cohort; successful completion of NU 313 with a C or better	1
NU 401	Evidence-based research & nursing practice	This course explores the nursing research process and models as a basis for an understanding of research evidence as a guide to informing practice decisions. Pre-requisites: progression into pre-professional clinical cohort or RN-BSN student; successful completion of NU310 with a C or better	3
NU 402	Healthcare policy, regulation & finance	This course emphasizes the role of nursing as advocates for health, the politics of healthcare, and the influence health policy has on nursing practice. It also discusses the role of government, the processes of law making, policy development, implementation, and regulation. Pre-requisites: admission to the RN-BSN program OR progression into pre- professional clinical	3

		cohort and successful completion of NU 423, NU 411, NU 425, NU 424 (semester 3 courses) with a C or better	
NU 415	Complex pharmacology interventions	This third pharmacology course continues exploring pharmacological interventions for more complex pathology and disease. This is a core nursing course. This course used ATI package to supplement curriculum. Pre-requisites: progression into pre-professional clinical cohort; successful completion of NU 414 with a C or better	1
NU 423	Complex adult concepts	This course will present concepts applicable to adults with complex care needs and will explore application of nursing knowledge, skills, and attitudes to provide patient centered and effective nursing care. This course used ATI package to supplement curriculum. There is a clinical component to this course. Passing for NU courses requires a C or higher grade. Pre-requisites: progression into pre-professional clinical cohort; successful completion of NU 331 and 332 with a C or better	5
NU 424	Mental health concepts	This course will explore mental health concepts across the lifespan and apply nursing knowledge, skills, and attitudes to effective, patient centered mental health. This course used ATI package to supplement curriculum. There is a clinical component to this course. Passing for NU courses C or higher grade. Pre-requisites: progression into pre-professional clinical cohort; successful completion of NU 331 and 332 with a C or better	4
NU 425	Concepts of health & illness with communities	Population concepts, considering social determinants of health, diverse individuals, families, and aggregates, are the focus of this course with emphasis on assessment, health promotion, and population-based care and management. A practicum allows students to build on knowledge and apply community health concepts. Learning experiences are individualized and guided by the preceptor and course faculty. Passing for NU courses requires a C or higher grade. This course used ATI package to supplement curriculum.	3

		Pre-requisites: pre-professional clinical cohort; successful completion of Semester 2 NU 331 and 332 with a C or better	
NU 431	Quality & patient safety	This course explores the concepts of quality and patient safety in today's healthcare environments as well as the role of nurses as advocates for health, and the influence health policy has on nursing practice. This course used ATI package to supplement curriculum. Pre-requisites: progression into pre-professional clinical cohort; successful completion of NU 423 with a C or better	3
NU 432	Leadership & management concepts in nursing	This course focuses on principles of leadership, management, communication, conflict, power, ethics, organizations, and change within healthcare as related to the role of professional nurses. This course used ATI package to supplement curriculum. Pre-requisites: progression into pre-professional clinical cohort; successful completion of NU 423 with a C or better	3
NU 434	Capstone clinical	This is a culminating course where nursing students apply nursing knowledge, skills, and attitudes learned throughout the program to patients under the supervision of a qualified preceptor. Students will gain an in-depth understanding of the practice environment through an intensive clinical experience. Passing for NU courses requires a C or higher grade. This course used ATI package to supplement curriculum. Pre-requisites: progression into the pre-professional clinical cohort; successful completion of NU 423 and NU 424 with a C or better	6

RN-BSN Completion Curriculum

I.	General Education Core Curriculum -	42 credits
II.	Foundational Courses for BSN	8-16 credits
III.	RN – BSN	30 credits
IV.	Block transfer of ADN work	30 credits
V.	Electives	0-12credits**
	Total	120 credits

**Note: elective credits may vary depending on individual transfer credits

RN-BSN Curriculum

I.	General Education Core Curriculum	42 credit hours
ID 250	Transfer success	3 credit hours
ID 301	Critical Thinking	3 credit hours
EN 101	Freshman Composition	3 credit hours
EN 102	Argument and Research	3 credit hours
EN 2xx	Literature	3 credit hours
	Fine Arts	3 credit hours
MA 116	College Algebra	3 credit hours
MA 200	Statistics	3 credit hours
CS 102	Microcomputer applications	3 credit hours
PS 101	Introduction to Psychology	3 credit hours
PS 204	Human Growth and Development	3 credit hours
HS 210	Healthcare ethics	3 credit hours
HI xxx	Historical survey	3 credit hours
IS xxx	International Studies	3 credit hours
II.	Foundational Courses for BSN	8-16 credit hours
BI 210	Anatomy and Physiology I	4 credit hours
Bi 211	Anatomy and Physiology II	4 credit hours
BI 250	Microbiology	4 credit hours
III.	RN-BSN Courses	30 credit hours
NU 300	Professional Nursing Roles–	3 credit hours
NU 301	Healthcare genetics & genomics	3 credit hours
NU 302	Pathophysiology for RNs –	3 credit hours
NU 305	Health assessment & promotion for RNs –	3 credit hours
NU 310	Information management in nursing practice	3 credit hours
NU 400	Leadership in nursing practice –	3 credit hours
NU 401	Research & Evidence-based nursing practice	3 credit hours
NU 402	Healthcare policy and nursing practice –	3 credit hours
NU 410	Population health nursing for RNs – Practicum included	3 credit hours
NU 420	Quality and patient safety for RNs – Practicum included	3 credit hours
IV.	Block Transfer of ADN work	30 credit hours
V.	<u>Electives</u>	<u>0-12 credit hours</u>
	Total	120 credit hours

RN-BSN Course Descriptions

Course number	Course title	Course description	Credit hours
NU 300	Professional nursing roles	This course examines the evolution and future of professional nursing roles, nursing theories, nursing science and nursing processes. The course also examines health care systems, factors influencing nursing practice, interprofessional communication and collaboration and current trends.	3
NU 301	Healthcare genetics & genomics	This course explores genes and genetic expression in humans, genomic disorders, pedigree construction, screening, diagnostics, and disease management, as well as the implications for nursing healthcare professionals	3
NU 303	Pathophysiology for RNs	This course emphasizes the mechanisms and manifestations of disease and disorders, recognition of symptomatology, and recommended nursing and pharmacological interventions through a conceptual approach.	3
NU 305	Health assessment & promotion for RNs	This course focuses on the comprehensive health and physical assessments of diverse clients across the lifespan, communicating findings, and promoting health and wellness to individuals, families, and communities.	3
NU 310	Information management in nursing practice	This course examines the concepts of information management, in all its forms, and use of technology in safe and effective nursing practice.	3
NU 400	Leadership in nursing practice	This course focuses on principles of leadership, management, power, ethics, organizations, and change within healthcare as related to the role of professional nurses.	3
NU 401	Research & evidence-based nursing practice	This course explores the nursing research process and models as a basis for an understanding of research evidence as a guide to informing practice decisions.	3

NU 402	Health policy and nursing practice	This course emphasized the role of nursing as advocates for health, the politics of healthcare, and the influence health policy has on nursing practice. It also discusses the role of government, the processes of law making, policy development, implementation, and regulation.	3
NU 410	Population health nursing for RNs	This focus of this course is the community or population as client considering diverse individuals, families, and aggregates within the population. The emphasis is assessment of risk, health promotion, epidemiology, and population-based care and management. This course includes a practicum in which the student will have the ability build on knowledge and apply community health nursing concepts. Learning experiences are individualized and guided by the selected preceptor and course faculty.	3
NU 420	Quality & patient safety for RNs	This course explores the concepts of quality and patient safety in today's healthcare environment. This course includes a practicum in which the student will build on theoretical knowledge by applying quality and safety competencies to a workplace project. Learning experiences are individualized and guided by the selected preceptor and course faculty.	3

Technology Requirements

All students are encouraged to own or have reliable access to a computer that meets or exceeds the following requirements.

	Mac	PC
Processor	Intel Core i5 or higher	Intel Core i5 or higher
RAM	16GB RAM	16GB RAM
Operating System	OS Sierra or later Fully updated	Windows 10 or later Fully updated
Hard Drive	250GB SSD	250GB SSD
Networking Hardware	802.11 a/c dual band	802.11 a/c dual band

Video Card	Integrated graphics card	Integrated graphics card
Webcam	Integrated	Integrated

Online Student Proctor Information

For online courses, remote proctoring software (Respondus Lockdown Browser©) is used to monitor student while taking an exam. This program requires the use of a webcam and microphone (either internal or external). The software will record audio and video during exams, so students should make sure to follow the guidelines set by their instructors while testing. Students should select a quiet, private setting for testing. When accessibility issues or extenuating circumstances arise, the student may work through the Equity and Inclusion Office and / or Division of Student Affairs for a different proctoring solution.

Core Performance Standards

Limestone BSN program requires all applicants and continuing students to meet certain standards based on the Southern Regional Education Board (SREB) Council on Collegiate Education for Nursing (CCNE) Core Performance Standards (Appendix A). The standards describe requirements in six dimensions of ability / performance: critical thinking and related mental abilities, communication and interpersonal abilities, physical abilities, hearing, visual, and smell.

Students who have disabilities

The Equity and Inclusion Office at Limestone University is dedicated to opening the doors of equal opportunity to individuals who are differently-abled. We assist student who self-identify with documented disabilities by determining

their eligibility for services through an interactive, collaborative process between the student and Accessibility staff, and then working together to determine reasonable accommodations and services. Students who have a physical or learning disability which may impact academic performance should register with the Equity and Inclusion Office prior to the beginning of each semester to ensure accommodations are in place when classes begin. Documentation should be sent directly to the Equity and Inclusion Office, Limestone University, 1115 College Dr, Gaffney SC, 29340.

Students who have disabilities should apply to Limestone University through the regular admissions process. Accommodations through accessibility are provided at no additional charge. For additional information, please contact (864)-488-4394 or <https://www.limestone.edu/equity-and-inclusion/accessible-education-services>

Academic Requirements & Procedures

All Limestone University academic procedures can be found in the [Limestone Academic Catalog](#). The nursing profession is proud to represent the highest ethical standards so any form of academic misconduct (cheating, plagiarism, or other) will follow policies outlined in the Academic Catalog.

Student Complaint Procedure

A student complaint is defined as any dissatisfaction occurring as the result of a student's belief that any academic or non-academic situation affects the students unjustly or inequitably. Complaints against a Limestone University student, faculty, staff, or administrator for sexual harassment, discrimination, or

assault, and / or domestic violence, dating violence, or stalking, you should contact the Title IX Coordinator or one of the designated deputy coordinators for Title IX.

The student has the right to raise a complaint and to have that complaint considered with courtesy and objectivity, in a timely fashion, and without fear of prejudicial treatment. The student should first discuss the matter with the person or persons directly involved, in an attempt to resolve the complaint through informal discussion. The student should make his / her advisor aware of the situation if the advisor is not directly involved.

If there is no resolution, the student should discuss the matter with the appropriate first level supervisor or administrator both verbally and in writing. The written statement should include a narrative of the situation and the individual with whom the discussion took place. If no resolution is reached, the student may then present a written complaint to the appropriate dean.

If reconciliation has not been achieved, the student may then schedule an appointment with the Provost, after submitting a written complaint to him / her.

If after meeting with the Provost, the complaint is not reconciled, then the student may schedule an appointment with the President of the University.

For Student complaints concerning grades or academic integrity, please refer to the current [Gaslight Handbook](#)

Chain of Command

It is important to follow a chain of command with regard to academic concerns. A chain of command is the hierarchy of authority within an organization. The faculty

of record for a specific course and / or the student's advisor is always the first contact, followed by the program director, next the department chair of Nursing and Health Sciences, then the Dean of the School of Education and Health Professions, and finally the Provost.

Limestone University Grade Scale

A	90-100
B	80-89
C	70-79
D	60-69
F	>60

BSN Grade Scale

The pre-licensure nursing program utilized the university grading scale for letter grades, but it is important to note that a numerical grade 75 or greater is considered passing in all NU courses.

Grading System

The academic standing of a student in the various courses is indicated as follows:

Passing Grades	Grade Value	
A	4	Excellent achievement
B	3	High achievement
C	2	Moderate achievement
D	1	Minimal achievement
P	NA	Passing
S	NA	Satisfactory
Non Passing Grades	No credit awarded	
F	0	Failing
W	NA	Withdrew
WP	NA	Withdrew passing
WF	0	Withdrew failing
IP	NA	Work in progress
I	NA	Incomplete
U	NA	Unsatisfactory
AU	NA	Audit

Academic Honors

Dean's List

Full-time students (minimum of 12 semester hours) receiving an “A” on all of their courses will be included on the Dean’s List at the conclusion of the Fall and Spring semesters. Full time students with a grade point average (GPA) of at least 3.75 with no failures or incompletes will be included on the Honor Roll.

The Fall Semester Dean’s List is typically published in January while the Spring Semester Dean’s List is typically published in July. Any missing grade or grades of “I” (incomplete) or “IP” (in progress), or withdrawal after 4 weeks will prevent a student from being included on the Dean’s List or Honor Roll.

Graduation with Honors

To be eligible for honors at graduation a student must:

1. Complete 57 semester hours at Limestone University toward a baccalaureate degree.
2. Attain the following Grade Point Average (GPA) on all Limestone University work.

Summa Cum Laude	3.95 - 4.0
Magna Cum Laude	3.75 - 3.94
Cum Laude	3.50 - 3.74

3. The Faculty of Limestone University presents prestigious awards for outstanding academic achievement, leadership, and citizenship on Awards Day and at Commencement. The General Excellence Online Program Award is presented to a worthy online student.

Academic Standards and Probation

Students must make reasonable progress toward a degree. The University reserves the right to restrict or withdraw social privileges and to request the temporary or permanent withdrawal of any student who, in the judgement of the University, is not taking reasonable advantage of the opportunity of higher education. To make satisfactory progress toward a degree and remain in good academic standing, a student must meet two (2) criteria:

1. Complete 67% of the credits attempted each semester

<u>Hours attempted</u>	<u>Requirement</u>
3	3 hours
6	5 hours
9	7 hours
12	9 hours
15	11 hours

2. Achieve the minimum cumulative grade point average indicated for the number of hours earned

<u>Class Standing</u>	<u>Credit Hours</u>	<u>Minimum Cumulative GPA</u>
Freshman	0-29	1.3
Sophomore	30-59	1.6
Junior	60-89	1.8
Senior	90-123	2.0

Academic Probation

Students who fail to meet these requirements will be placed on Academic Probation and granted one semester to regain eligibility. Student will retain their eligibility to federal aid during the probationary period. A student will not be allowed to maintain Title IV eligibility beyond 185 attempted credit hours (150% of Limestone University's graduation requirements).

After being placed on probation, a student must successfully complete four academic courses (12 semester hours) achieving the appropriate GPA stated above. Probation is automatically removed when the student has achieved good academic standing.

Academic Suspension

If the student fails to achieve satisfactory academic progress and good academic standing, the student will be suspended from the University. Suspended students may appeal the Provost's Office. If the appeal is approved, students must successfully pass courses with 75 or greater, C or above grades in 6 credit hours on probationary status. If a student is successful in repeating the courses, their probationary status is removed. If the appeal is denied or if the student does not appeal the suspension, the student is suspended for 1 year. If a student does not meet the requirements set by the probation, receiving below C grades, they will progress to academic dismissal.

Academic Dismissal

Students are unable to appeal academic dismissal and will not continue in the program. Students will be notified via email correspondence of their dismissal by the Program Director. Academic Dismissal occurs when:

- A student placed on academic suspension does not reapply to return or does not successfully retake the course with a greater than 75, C grade
- A student is placed on a second academic suspension
- A student received a third below 75, C grade within the nursing program

Once students are accepted into the nursing clinical cohort, students must pass classes with a minimum of a C grade to progress. Clinical courses are designed as

sequential so successful completion is necessary to continue progression. IF a student is unsuccessful in a NU course (below C grade), it must be repeated when it is offered next. Below C grades will follow the university process for probation, suspension, and dismissal.

Grade Appeal Process

If a student receives a grade, he / she believes is incorrect, and the student wishes to appeal the grade, he / she must proceed in the following manner:

- Present and review the concern with the instructor and attempt to resolve the issues concerning the grade. All concerns must be presented in writing.
- If the concern is not resolved with the instructor, then the student should submit an appeal to the appropriate Academic College Dean using the online grade appeal form on the Limestone University website. Appeals must be submitted to the Dean of Natural and Health Sciences within 30 calendar days of the grade being assigned.

Grade appeals will be considered for the following reasons:

1. The grade assigned was miscalculated according to the grading scale established for the course
2. Grades were not assigned in accordance with the assignments, exams, etc. as outlined in the syllabus
3. Students were not treated equally in terms of the manner in which grades were calculated for the course.

A decision concerning the grade appeal will be made as soon as possible, normally within 30 calendar days of submission to the appropriate Academic College Dean.

Grade Release Policy

Grades are available on the HALO Portal. Grades may be reviewed approximately one week after the class has ended. Grades will not be released to a student verbally or otherwise. Grades are never released over the telephone.

Withdrawal from a course

Students wishing to drop or withdraw from a course may do so during the first week of classes (drop / add week) with no penalty and no grade will be assigned. From the second week through 5:00pm EST of the 5th week of classes, the student may withdraw with a grade of “W” which will have no impact on the student’s GPA. After this point, through the last day of classes, students may withdraw with a grade of either “WP” or “WF” unless a final grade has been assigned. The student bears full responsibility for all courses on his or her registration schedule. Online students who wish to drop or withdraw from a class *after* the drop / add period, must contact the course faculty and submit a withdrawal form to the Registrar’s office. Failure to submit the form will result in recording a grade of “F”. Students forced by illness or other hardship to drop a class after the deadline may petition for a grade of “WP” from the Provost.

Withdrawal from University

To withdraw from Limestone University, the same procedure applies as to withdraw from a course. Student who withdraw for more than 18 months, must fulfill the requirements of the catalog in effect when they re-enter.

Transient Permission

Students enrolled at Limestone University must request transient permission to complete classes at other institutions by completing the form at: <http://my.limestone.edu/registrar-forms/transient-permission>. Transfer credit will not be awarded without completion of the permission form. Prerequisites must be completed and transient credits may not be awarded for any course in which a grade has been received. Student may not receive permission if the course is part of their last 31 hours for a Baccalaureate degree at Limestone University. Student must be in good standing, academically and financially, for request to be approved. No more than 15 credit hours taken transiently will be accepted toward a baccalaureate degree.

Transfer Credits

A maximum of 66 credit hours may be transferred from a two-year junior or technical college. Only courses with a grade of “C” or better will be accepted. A block credit of 30 credit hours will be awarded to RN-BSN students upon completion of the RN-BSN courses.

Graduation Requirements

A student must fulfill the Graduation requirements, including the Verbal and Quantitative Skills requirements, the AWE Writing Intensive Course, the General Education requirements, the Critical Thinking requirement, the Assessment Examinations and the Application for Degree form. For all degrees.

In addition, students in good standing within the Nursing Program must have met the following academic requirements to be eligible for graduation:

- A minimum of 2.0 cumulative GPA
- A ‘C’ or better in all nursing courses.
- 30 credit hours in NU Nursing courses from Limestone University
- Successful completion of 120 credit hours

II. Clinical Requirements

Clinical Hour Calculation Policy

Policy: The Athletic Training and Nursing Programs at Limestone University require coursework that is a mix of didactic and clinical experiences. As healthcare professionals, we often benchmark against one another to ensure the highest quality of education. Assigning course credit is an area that we desire consistency; therefore, the number of clinical hours per course is calculated using the following formula:

$$\text{Number of credit hours for the course} \times \text{ratio of out-of-class (clinical hours) to in-class or coursework hours} \times 15 \text{ weeks per semester} = \text{number of total hours for the course}$$

To find the number of hours per week, the **number of total hours for the course** is divided by the total number of weeks the student is required to complete clinical hours (7.5 per term or 15 for courses spanning two terms).

Example:

$$1 \text{ credit hour} \times 3 \text{ (ratio) clinical hours} \times 15 \text{ weeks} = 45 \text{ total hours for course}$$

$$45 \text{ total hours for the course} / 7.5 \text{ weeks} = 6 \text{ hours per week minimum}$$

Ratio specifications: The ratio of out-of-class clinical hours to in-class/coursework hours is determined by the level of course, number of credit hours for the course, number of weeks the course spans (7.5 weeks or 15 weeks), and the expected clinical versus didactic coursework hours.

- If the length of the course is accelerated (7.5 weeks) and the expectation is for a higher number of clinical experience hours versus didactic coursework hours, then a higher range will be used.

- A traditional clinical course has a ratio of 3:1, indicating three hours of additional coursework or clinical hours to one hour of class time per credit hour. This ratio can change based on the needs of the course, for example, if there is more need for clinical hours than didactic hours, this ratio will increase.
- Actual didactic class time will be subtracted from the total hours required for the class as calculated using the formula above to determine the number of required clinical hours per week in a course.

Clinical Standards

Clinical exposure is an integral portion of nursing coursework that provides an opportunity for students to observe, integrate, and demonstrate concepts learned in the classroom. Safe and successful performance in the clinical setting is expected for course completion. Additionally, each clinical course has a required number of clinical hours to be completed. Students must meet the hour requirements set for each clinical course. Because clinical is a vital component of the course and not separate, if a student is unsuccessful in **either** class or clinical, the course and clinical must be repeated.

Student Transportation to Clinical

It is the student's responsibility to arrange transportation to and from clinical settings that are off campus. Cost associated with transportation is the student's responsibility. Clinical opportunities may be within a 60-mile radius. Students must follow parking requirements set by the facilities.

Clinical Absences

Students are expected to attend all clinical experiences, however we understand that sometimes students are unable to attend due to illness or circumstances outside of their control. Students must communicate with their clinical instructor **PRIOR** to missing clinical and make arrangements to make up the clinical time. An official excuse must be provided to the clinical instructor in case of illness.

Clinical Evaluation Policy

Pre-licensure students are evaluated with each clinical experience by multiple methods; care plans, concepts maps, reflections, simulation, clinical evaluation form, etc. Students must achieve satisfactory evaluations to successfully pass clinical. More than 3 unsuccessful evaluations may result in clinical day failure. Any unsafe practice or unprofessional behavior to have occurred in the clinical setting may result in an automatic failure for the clinical day and constitutes as a major offense.

Required Documentation

Clinical Evaluation Form

The clinical evaluation form evaluates performance of nursing clinical expectations, i.e., professionalism, safety, communication, critical thinking, etc. A clinical evaluation form will be completed for each student for each clinical day / experience. See Appendix for the forms. Students must show improvement over time in skills and performance.

Castlebranch Compliance Tracker / Document Manager

Students are required to purchase and complete the Compliance Tracker requirements prior to beginning the clinical cohort and must keep it updated throughout the program until graduation. Students must meet these health requirements to meet facility expectations to participate in clinical experiences as a health professional student. See Appendix for instructions to purchase the clinical tracker.

Criminal Background Check

It is a requirement by the program and clinical agencies for health professionals that students have a clear background check prior to beginning the clinical cohort. This is part of the Castlebranch package and the report will be provided in Castlebranch.

Drug Screening

It is a requirement by the program and clinical agencies for health professionals that students have a clear drug screen prior to caring for patients. A drug screen is part of the Castlebranch package. A nearby drug screening facility will be recommended by Castlebranch for students to complete the drug screen.

Liability Insurance

RN-BSN students must purchase a student policy of professional liability insurance that will provide coverage in the amount \$1,000,000 each incident/ \$3,000,000 aggregate prior to participation in the Nursing Practicum courses. Students will not be allowed to participate in their assigned Nursing Practicum courses until they show proof of liability insurance within Castlebranch document manager system. The professional student liability insurance utilized by this program is through Proliability for faculty and pre-licensure students.

Health Insurance

All Students must show proof of current health insurance **before** participating in clinical hours. Clearance must be approved prior to registering in clinical courses.

Nursing Program Blood borne Pathogen Exposure Control Plan (ECP)

Students enrolled in the Nursing Program are not employed by Limestone University; however, through their educational experiences, they may come into contact with blood or other potentially infectious materials (OPIM). Annual Blood borne Pathogen Training is required of all current students. Documentation of annual training provided through healthcare provider employment may be used to satisfy this requirement.

In the event of accidental bodily exposure to blood or OPIM, the student is to follow cleansing procedures outlined in the Blood borne Pathogen Training and report the incident immediately to their assigned Clinical Preceptor and Nursing Program Director to ensure proper procedure and documentation.

Active Communicable / Infectious Disease Policy

It is the intent of the Nursing Program to protect the health and safety of its students and employees. This policy has been designed to provide employees, Clinical Preceptors, and Nursing Faculty with a plan to assist in the management of employees with communicable/infectious diseases as defined by the Centers for Disease Control (CDC) and the South Carolina Department of Health and Environmental Control (SC DHEC). Per the CDC, "Communicable disease" means an illness caused by an infectious agent or its toxins that occurs through the direct or indirect transmission of the

infectious agent or its products from an infected individual or via an animal, vector or the inanimate environment to a susceptible animal or human host.

In accordance with the guidelines from the South Carolina Department of Health and Environmental Control and the Limestone University Health Center, the following policies and procedures have been developed for the control of communicable diseases. Any student who is diagnosed with a communicable disease identified on the South Carolina 2018 List of Reportable Conditions is required to be reported to the Region 2 Public Health Office. Students who contract a communicable disease are required to obey the prescribed guidelines by consulting physician(s) and may not participate in any Limestone University sanctioned events, including classes or clinical, until cleared by the consulting physician(s). The complete list of reportable conditions is available at <http://www.scdhec.gov/Library/CR-009025.pdf>

Examples include:

- Blood borne pathogens
- Diarrheal diseases
- Hepatitis viruses
- Measles
- Pediculosis
- Scabies
- Varicella
- SARS
- Poliomyelitis
- Staphylococcus aureus
- Conjunctivitis
- Diphtheria
- Herpes simplex
- Meningococcal infections
- Pertussis
- Streptococcal infections
- Herpes zoster
- Gastrointestinal infections
- Influenza

- Cytomegalovirus infections
- Enteroviral infections
- HIV
- Mumps
- Rubella
- Tuberculosis
- Viral respiratory infections
- Parvovirus
- Rabies
- COVID

I. The following guidelines have been established by the Nursing Program to *prevent* exposure and infection:

- Students must submit an immunization record that minimally indicates immunity to measles, tetanus, meningitis, hepatitis B, and tuberculosis.
- Students must show successful completion of annual Blood borne Pathogen Training annually.
- Students are required to use good hand-washing hygiene and Universal Precautions at all times when functioning as a nursing student in the Nursing Program. This applies to all clinical sites and affiliated clinical sites.
- Students are not to attend clinical rotations or clinical experiences if they have active signs or symptoms of a communicable disease.

II. The following guidelines have been established by the Nursing Program to *manage* a potential infection:

- Any student who has been exposed to a potential infection before, during, or after a clinical experience should report that exposure to his/her Clinical Preceptor immediately.
- Any student who demonstrates signs or symptoms of infection or disease that may place him/her and/or his/her patients at risk, should report that potential infection or disease immediately to the Clinical Preceptor so that they can set up a referral to a physician.
- Any student who has been diagnosed with a communicable disease may not return to clinical rotations and/or clinical experiences until they have been cleared by guidelines or a consulting physician(s).
- The student is responsible for keeping the Program Director and/or Clinical preceptor informed of his/her conditions that require extended care and/or missed class/clinical time. The student may be required to provide written documentation from a physician to return to class and/or clinical site.
- If a student feels ill enough to miss ANY clinical experience, that Student should notify the Clinical Preceptor and assigned nursing faculty immediately.

Appearance, Dress Code, & Grooming

The purpose of a dress code is to promote professionalism within the program as well as reflect our values within the school and outside professional communities. Students who are non-compliant with the dress code will be asked to leave the clinical setting which will result in a failure for the clinical day and an absence for the clinical day.

Classroom attire:

Students must be appropriately dressed for class so that practicing skills is achievable.

Lab / clinical attire:

Scrub attire is approved for lab or clinical attendance. Scrubs must be clean, fit appropriately, and appearance not disheveled. Tennis shoes or nursing shoes / clogs are appropriate footwear. Flip-flops, crocs, or open toe shoes are not appropriate. Casual professional dress with Limestone lab coat is approved for other professional experiences where scrubs are not necessary. Professional dress attire means, dress pants, polo or dress top, casual professional shoes.

Nametags:

Limestone University name tags are required when present in clinical facilities or at events as a nursing student. Nametags must be worn, visible, at eye level. The Lewis Blackmon Law requires picture IDs with clear identification of name and role when in clinical settings. A facility specific ID will be provided and is expected to be worn and visible while participating in that facility.

Equipment:

Nursing students will always need a watch with a second hand, a stethoscope, and miscellaneous equipment (from nursing kit) when attending lab and clinical.

Students in the RN-BSN program are professional nurses. Their dress attire, when representing Limestone University shall consist of an approved *lab coat* with the Limestone University *Patch* and Limestone University student *name tag*. See Appendix for examples of the patch and name tag.

An example of a lab coat to be purchased is Wonderwink style #7202 for women or #7102 for men, in white. See Appendix E.

Pre-licensure undergraduate students are expected to purchase and wear approved clinical attire (scrubs) for clinical courses in clinical facilities. When representing Limestone outside of the clinical setting, professional dress and / or lab coat with student name tag is appropriate.

Cell Phone and Social Media Policies

The use of cell phones in the classroom and during clinical experiences is not permitted. IF a student expects a call or is experiencing an emergency, communicate with the instructor and arrangements can be made.

Voicemail greetings should be appropriate and professional.

Texting a clinical instructor or professor should only be used if deemed a preferred communication method by that individual and the tone should always be professional.

Social media use is common and pervasive. Commonly used social media applications include but are not limited to Facebook, Instagram, SnapChat, TikTok, Flickr, Whatsapp, YouTube, blogs, podcasts, Twitter, and LinkedIn. Regardless of the application, the protection of private and sensitive information is protected under HIPAA and FERPA laws. Social media use should remain professional and not reflect poorly on the program or Limestone University. It is not appropriate to “friend” or “like” any patient under their care, even if the patient initiates the contact as it violates a professional therapeutic relationship. Limestone encourages students to visit The National Council for State Boards of Nursing (NCSBN.org) to review their social media guidelines.

Behavioral Expectations

Communication is a necessary component of nursing and education. Civil, respectful behavior is expected. Behavior or communication that is incivil will not be tolerated in the classroom or in clinical environments. Engaging in incivil behaviors or communication interferes with the rights of others and is disruptive to the educational process. It is expected that students respect and adhere to the following civil communication & behavior policies:

- Vocabulary should be appropriate to the audience and setting
- Vulgar, sarcastic, and inappropriate language, cursing, name calling, or offensive language is not professional
- Do not exhibit disrespectful non-verbal behaviors such as sighs or groans
- Subject matter for conversation should be appropriate
- When signing documentation, student must indicate they are a nursing student (BSN student)
- Students must use proper email etiquette when communicating with professors, clinical instructors, and others. Using Limestone email, include a concise subject line, use appropriate salutation (Dr. Professor, Mr., Mrs., etc.) and a closing statement
- Use appropriate grammar
- Maintain appropriate tone and professionalism

- Be honest in all communications and assignments
- Create and use a proper email signature that properly identifies as a nursing student.

Disciplinary Procedures

The nursing program is a program for health professional students and strictly adheres to professional code of conduct and ethical standards. The following are the procedures taken when a student does not meet expectations, fails to show competence, has committed academic misconduct, or when there has been a breach to policy. Offenses are categorized as either minor or major offenses.

Minor Offenses may include, but are not limited to, dress code violations, tardiness, being unprepared, or failure to complete required documentation. Minor offenses are documented on a counseling form by the faculty member or clinical instructor. More than 2 minor offenses are equivalent to 1 major offense.

Major Offenses may include, but are not limited to, failure to attend assigned clinical experiences, insubordination, failure to perform duties in a professional manner, unsafe practice in the clinical environment, academic misconduct, or violation of programmatic or university policies. Major offenses are documented in a counseling form and signed by both the student and faculty member.

Disciplinary Level 1

On the second minor offense or first major offense, the student will attend a counseling meeting with the faculty member and instructor to discuss and resolve the issue. Documentation on a Counseling Form will be signed by both the student and faculty member with an improvement plan and consequences for future violations.

Disciplinary Level 2

On the fourth minor offense or second major offense, the student will attend a meeting with the faculty member, applicable instructor, and program director. A counseling form will be completed again outlining resolution and consequences and the Chair of the Nursing and Health Sciences Department will be notified.

Disciplinary Level 3

On the sixth minor offense or third major offense, the student will be immediately dismissed from the Nursing Program.

Each case will be dealt with individually. Some violations may warrant a first offense falling under disciplinary level 2 or 3. If appropriate, the student will be referred to the appropriate authorities.

Nursing Grievance Process

If a student would like to file a complaint and / or challenge disciplinary action from the nursing program, they must provide a written request through the following personnel:

- Chair of the Department of Nursing and Health Sciences
- Dean of the College of Education and Health Professions
- Provost

The student has 72 hours between each disciplinary decision made to notify the next person in the process if the student does not agree with the decision made. The decision of the Provost is final.

Appendix A

Core Performance Standards

Requirements	Standards	
Critical thinking	Critical thinking ability for effective clinical reasoning and clinical judgement consistent with level of educational preparation	
Professional Relationships	Interpersonal skills sufficient for professional interactions with a diverse population of individuals, families and groups	<ul style="list-style-type: none"> • Establishment of rapport with patients/clients and colleagues • Ability to work effectively and collaboratively in groups, with clients or families • Capacity to engage in successful conflict resolution • Respectful interaction with peers, faculty, superiors, preceptors, clients, and families • Respects cultural diversity and rights of others • Practices ethical behavior • Ability to reflect on own behavior and performance
Communication	Communication (hearing, speaking, reading and writing) adeptness sufficient for verbal and written professional interactions	<ul style="list-style-type: none"> • Effective verbal and written English communication • Ability to complete written assignments, participate in discussions and group activities • Effective explanation of treatment procedures and health teaching. • Documentation and interpretation of nursing actions and patient/client responses • Ability to competently utilize a variety of computer applications, programs, or platforms
Mobility	Physical abilities sufficient for movement from room to room and in small spaces	<ul style="list-style-type: none"> • Ability to attend and participate in course requirements and clinical experiences • Movement about patient's room, work spaces, and / or treatment areas • Administration of appropriate rescue procedures-cardiopulmonary resuscitation according to professional standards
Motor skills	Gross and fine motor abilities sufficient for providing safe,	<ul style="list-style-type: none"> • Ability to calibrate and use basic medical equipment and use of small objects • Ability to perform necessary nursing skills • Ability to performing hand washing

	effective nursing care	<ul style="list-style-type: none"> • Ability to provide or assist with ADLs and transfer of patients • Ability to use computers and other electronic medical devices
Hearing	Auditory ability (with or without assistive devices) sufficient for monitoring and assessing health needs	<ul style="list-style-type: none"> • Ability to participate in course activities (lectures, discussions, etc.) • Ability to hear monitoring device alarms, other emergency signals, and cries for help • Ability to effectively hear verbal exchanges among peers, healthcare team, and clients • Ability to detect changes in auscultatory assessment findings such as cardiac or respiratory sounds
Visual	Visual ability (with or without assistive devices) sufficient for observation and assessment necessary in patient care	<ul style="list-style-type: none"> • Ability to observe, assess, discriminate colors, changes, or abnormalities • Ability to read medical documents, health related materials, and medical equipment • Ability to observe client, peer, and faculty materials and responses • Ability to safely and accurately prepare and administer medications by all routes
Tactile Sense	Tactile ability sufficient for physical assessment	<ul style="list-style-type: none"> • Ability to palpate in physical examinations and various therapeutic interventions

Appendix B

Costs Associated with the Nursing Program

Clinical Requirements:

Castlebranch account for clinical requirements Manager \$143 initial:

- Criminal background check – to be completed when pre-selected to cohort
- Urine drug screen
- Tuberculosis ppd screen
- Immunizations
 - Hepatitis B
 - Influenza (annually)
 - MMR
 - Tetanus within 10 years
 - Varicella
- Proof of Health Insurance
- Proof of Liability Insurance (RN-BSN students)
- Proof of CPR – American Heart BSL for healthcare providers

Other costs:

- ATI cost for the program \$3025 / student divided over 4 semesters. Required for all NU courses.(\$756.25 each semester)
- CPR course – American Heart BLS for healthcare providers (approx. \$50)
- Books (approx. \$500 / semester)
- Lab Supplies Fee: a \$250 fee is assessed each fall at the beginning of the clinical cohort associated with NU 321, 331, 332, and fall of the senior year associated with NU 434, 423, 424, 425
- Uniform (to be ordered during orientation): Required for all clinical courses: NU 315, 321, 331, 332, 423, 424, 425, 434
 - Nursing scrubs \$50
 - name badge \$20
 - Jacket with patch \$40
 - Tennis shoes or hospital approved nurse shoes

Nursing kit / supplies (approx. \$50) Required for all clinical courses: NU 315, 321, 331, 332, 423, 424, 425, 434

- Bag / Case
- Hemostats
- Scissors
- Tape
- Pen light

Appendix C

Background Check and Drug Screen Policy

Healthcare providers are entrusted with the health and safety of their clients in a variety of settings as well as confidential information. Accordingly, nurses should exercise ethical behavior in all instances. Settings that provide healthcare services require background checks and drug screens to ensure the safety of their clientele and trustworthiness of their providers. As a student, the educational institution is responsible for conducting background checks and drug screens prior to clinical experiences. Students who cannot participate in clinical experiences due to criminal or other offenses due to revelations in background checks will be unable to complete the clinical portion of the program.

The following background checks are required:

- Residence history trace and criminal record check for the past 7 years
- Check of the nationwide sex offender registry
- Social security number verification
- Nationwide healthcare fraud and scan
- US Patriot Act – OFAC
- Check of any other registry or records required by law, accrediting agency, or specific agency

Students are unable to participate in clinical experiences if they have convictions of, plea of guilty, plea of nolo contendere, or pending criminal charges involving the following:

- Crimes involving violence against a person including, but not limited to: murder, manslaughter, use of deadly force, assault and battery of a high and aggravated nature, assault and battery with intent to kill, sex crimes, abuse of children or the elderly, abduction and robbery.
- Crimes occurring within 5 years of application involving the distribution of drugs
- Crimes occurring within 5 years of application involving illegal use or possession of weapons including but not limited to guns, knives, explosives, or other dangerous objects

- Crimes occurring within 5 years of application involving dishonesty or moral turpitude including but not limited to fraud, deception, embezzlement, or financial exploitation
- Any other crime or pattern of criminal behavior, which, in the facility's opinion, warrants exclusion or dismissal from the student rotation at the facility.

Urine drug screen samples will be analyzed for the following substances:

- Amphetamines
- Barbiturates
- Benzodiazepines
- Cocaine
- Ethanol
- Marijuana
- Meperidine
- Methadone
- Methaqualone
- Opiates
- Oxycodone
- Phencyclidine
- Propoxyphene

This list may be amended at any time by the University

Student responsibility

It is the student's responsibility to inform the program director of any reportable offense prior to conducting a background check. Failure to do so will result in removal from the program. If an offense surfaces on the background check and the student believes it to be false, it is the student's responsibility to provide alternate proof. If proof is not presented, the student will be ineligible for clinical and therefore unable to complete the program courses.

If a student refuses to submit a drug screen, they will be withdrawn from clinical courses until a sample has been provided. If a positive result is received and prescribed documentation is not provided, the student will be withdrawn from clinical courses

Pre-licensure students must purchase the package from Castlebranch once pre-acceptance to the clinical cohort has been communicated (March 15) and prior to May 1. Instructions for ordering the package and the required background check will be sent with pre-acceptance communication as well as at the mandatory orientation. Full admission to the clinical cohort is subject to a clear background check. Completion of health requirements and drug screen must be uploaded prior to June 30. If not completed, students may not enroll in clinical cohort classes and may forfeit their seat in the clinical cohort.

RN-BSN students are required to purchase the package from Castlebranch the semester *prior* to registering for a clinical course (RN-BSN courses: NU 410 or NU 420). Instructions to create a Castlebranch account will be provided by the RN-BSN director via email invitation from Castlebranch.

Ordering instructions for the background check, drug screen, and document manager can be found in Appendix D. Once the drug screen is ordered, a chain of custody form should be downloaded and taken to an approved drug screening facility like LabCorp or AccuDiagnostics for submission of a urine sample. Results usually take 2-3 days.

Castlebranch requirements:

RN-BSN student requirements	How often?	Description & Additional information
Positive Rubeola Titer	Once	A positive IgG antibody titer indicates immunity. If a titer is equivocal or negative, a booster injection is required. An additional titer is not required after a booster. Submit evidence of booster injection. MMR is a live virus and should not be administered to pregnant women and all
Positive Mumps Titer	Once	
Positive Rubella Titer	Once	

		women should avoid becoming pregnant for 28 days following vaccination with MMR.
Positive Varicella Titer	Once	A positive IgG antibody titer indicates immunity. If a titer is equivocal or negative, a booster injection is required.
Positive Hepatitis B Titer	Once	A positive antibody titer indicated immunity. If a titer is equivocal or negative, Hepatitis B vaccines and a 2 nd titer are required. Full immunization consists of 3 Hepatitis B vaccinations over a 6 month period and a 2 nd titer 1-2 months after the last dose (3 rd vaccination). If the post vaccination titer is equivocal or negative, then one is considered a non-responder, not expected to convert and documented as non-immune to Hepatitis B virus and is advised to always practice universal precautions.
Professional License (RN)	Once	Submit current evidence of unencumbered, active RN licensure, compact RN licensure, or RN licensure from state where clinicals are facilitated
Copy of student nametag	Once	Upload a copy of the student nametag worn when in the student role in clinical
Clear Background Check	Once, 90 days prior to first clinical	Clear background check
Clear Drug Screen	Once, 90 days prior to first clinical	Clear 12 panel urinalysis screen
Negative Tuberculosis (TB) screen	Annually	One of the following is required: Negative 2 step PPD skin Mantoux test administered 1-3 weeks apart within the past year OR Negative 1 step skin test after previous negative 2 step within the past year OR Negative QuantiFERON Gold blood test within the past year OR Negative T-spot blood test within the past year. If a positive result, a clear chest xray and physician clearance must be submitted

		The renewal date will be one year from the provided documentation.
Influenza	Annually	Submit documentation of flu shot administered during current flu season
Handbook Acknowledgement Form	Annually	Upload a copy of a signed Handbook Acknowledgement form found at the back of the current handbook.
Current CPR certification	Every 2 years	Must be American Heart Association (AHA) BLS for Healthcare provider course or American Heart Association ACLS course. Submit copies of the front and back of signed card or ecard. Renewal date will be determined by the expiration date on the card. A temporary letter from provider / instructor will be accepted for 30 days until a card can be submitted.
Tetanus	Every 10 years	Submit evidence of a Td or Tdap booster within the past 10 years
Covid-19	Vaccine + booster(s)	To enter healthcare facilities, students must show documentation of Covid-19 vaccination and booster(s) as recommended by CDC

Inability to complete any of the previously listed immunizations must be supported with documentation from a medical provider.

Appendix D Castlebranch Account

Limestone University's Nursing Program contracts with Castlebranch to order and maintain records of student program and clinical requirements.

- Video for student MyCB accounts: <http://go.castlebranch.com//15312/2016-08-01/655ph3>
- FAQ: <http://go.castlebranch.com/newclientfaq#AdditionalQuestions>

Limestone College - Nursing
How to Place Order

Welcome to **myCB**

To place your order go to:

<https://portal.castlebranch.com/LR90>

Package Name (if applicable):

PLACE ORDER → **SELECT PROGRAM** → **SELECT PACKAGE**

To place your initial order, you will be prompted to create your secure myCB account. From within myCB, you will be able to:

- ✓ View order results
- ✓ Upload documents
- ✓ Manage requirements
- ✓ Place additional orders
- ✓ Complete tasks

Please have ready personal identifying information needed for security purposes.

The email address you provide will become your username.

Contact Us: **888,914,7279** or servicedesk,cu@castlebranch.com

Appendix E

Nursing Program Dress Code

Scrubs, Lab Coat, Patch, & Name Tag

Ordering instructions

Nursing uniforms consist of an approved unisex scrub top and pants in Ceil Blue, a white lab coat with Nursing program patch on the left chest, and approved nursing shoes or tennis shoes. Scrubs can be purchased at orientation and will also be available in the campus bookstore. Reads Uniforms in Spartanburg is our approved vendor.

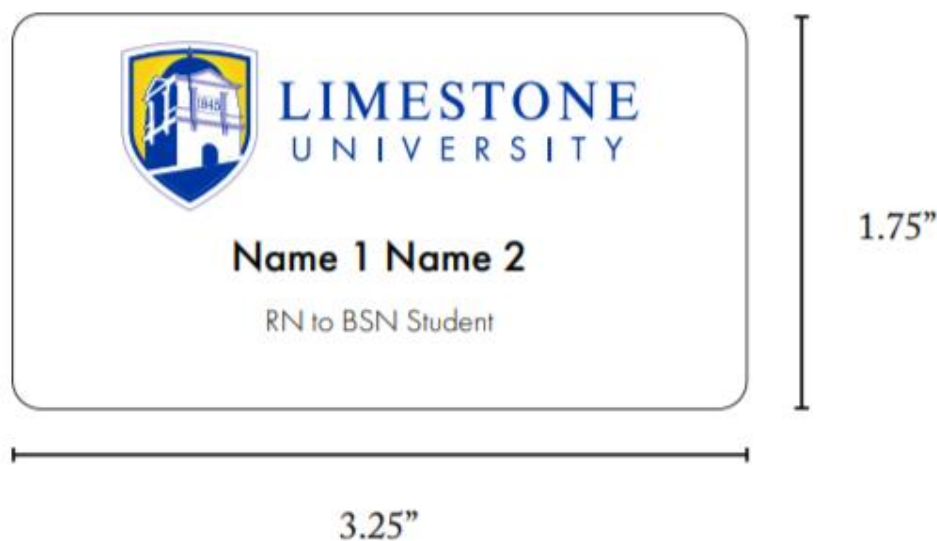

Wonderwink style 7102 for men or 7202 for women (or something similar). White

This patch will be included with the lab coat purchase from Reads Uniforms. If you purchase your lab coat elsewhere, this patch must be purchased from Limestone University Nursing Program for \$10 and sewn (ironed) on the left side chest of lab coat.

Student Name Badge

The Limestone University student nametag can be purchased from Limestone for \$20. These are included as required nursing supplies for all clinical courses NU 315, 321, 331, 332, 423, 424, 425, 434 and can be applied to your financial aid.

When representing Limestone University as a student, the name tag must be worn and visible on either side of the chest.

Appendix F

Respondus LockDown Browser© Policy

Online courses use Respondus LockDown Browser and Monitor for verification of student identity and for monitoring student activities while completing selected exams. Although there is not a human watching you take your exam, the software will record audio and video during the exam, so make sure you're following the guidelines set by your instructor while testing. You should select a quiet, private space for testing. Students must own a webcam and have a built-in or standalone microphone associated with their computer to use Respondus Monitor. Specific instructions regarding the use of Respondus are offered on the quiz or exam in the course. For more information about Respondus, see the [Respondus Student Quick Start Guide](#).

Technical Requirements Microphone (integrated or separate) Webcam (integrated or separate); Browser: [LockDown Browser](#); Internet Connection: Cable Modem, DSL or better.

Appendix G – Clinical Forms

Limestone University Clinical Preceptor Intent Form

Course: NU_____. Anticipated term for precepted experience: _____

Date: _____

Instructions: Clinical Preceptors please complete based on your interactions with the BSN student during assigned clinical time period. Please sign and return to the course instructor.

Professionalism	Proficient	Needs Improvement	Unsatisfactory	Not Observed
Demonstrates professional work ethic Strives for quality, thorough, present, responsible				
Demonstrates appropriate confidence level Applies skills without hesitation, eager to demonstrate, displays appropriate level of confidence				
Shows initiative in practice Stays occupied, resourceful in seeking answers, eager, asks questions, self-motivated				
Demonstrated adaptability to change Flexible, adaptable, resourceful, positive				
Shows effective time management Arrives on time, efficient, prepared for practice, completes tasks, shows evidence of planning ahead				
Ethical Practice Maintains confidentiality, adheres to Code of Ethics				
Professional behavior & dress Courteous, respectful, appropriate language, appropriate behavior, professional dress, properly identified				
Demonstrates ability to handle stress Handling more than one thing at a time, emotionally stable				
Acceptance to constructive criticism Accepts feedback positively, works to improve				
Nursing Process	Proficient	Needs Improvement	Unsatisfactory	Not Observed
Demonstrates competence in assessment of data				
Develops appropriate plan / priorities Establishes realistic outcomes				
Engages in systematic and ongoing evaluation of plan				

Communication & Teamwork	Proficient	Needs Improvement	Unsatisfactory	Not Observed
Follows communication protocols for safe practice SBAR, therapeutic client / patient relationship				
Communication with clinical preceptor Interacts well, actively listens, follows direction, communicates pertinent information consistently and reliably				
Communication with inter / intra professional teammates Interacts well, actively listens, responds appropriately, promotes cohesion, acts as a team player				
Applies sound clinical judgement and is accountable for outcomes For delegated acts Supervision members of the healthcare team				
Demonstrates cultural competence Sensitive, inclusive, knowledgeable				
Demonstrates competence with patient care technology Accurate & complete documentation, safe use & care of equipment, effective management of technology, ensures security				
Advocacy & Leadership	Proficient	Needs Improvement	Unsatisfactory	Not Observed
Uses data to make evidence-based decisions Utilizes appropriate resources				
Advocates for high quality care				
Knowledgeable of facility policies What they are, where to find them, importance of				
Acts effectively in role of leader Supports a culture of quality, works effectively with all team members, contributes to development of peers

Limestone University Student Evaluation of Clinical Preceptor & Clinical Site

Student Name: _____

Clinical Preceptor / Site: _____

NU Course Practicum: _____

Date: _____

Instructions: Students please fill out based on your interactions with the Clinical Preceptors during assigned clinical experiences. Please elaborate on all items marked “Disagree” or below. The feedback gained from these evaluations is considered confidential and will be utilized to strengthen the Nursing Program.

Clinical Preceptor Professional Attributes	Strongly Agree	Agree	Disagree	Strongly Disagree	Not Observed
Required respect from others.					
Demonstrated respect towards others.					
Demonstrated confidence in clinical skills.					
Professional in appearance and conduct.					
Adhered to Limestone University Nursing program policies and procedures					
Adhered to professional and facility policies and procedures.					
Demonstrated enthusiasm towards their chosen profession.					
Promoted professional development and awareness.					
Clinical Preceptor Communication Skills	Strongly Agree	Agree	Disagree	Strongly Disagree	Not Observed
Clearly stated rules and expectations for clinical experience/rotation; Provided appropriate orientation for clinical experience.					
Encouraged student to engage in discussion about relevant topics and always to ask questions.					
Dealt with problems quickly.					
Corrected individuals in a professional manner.					
Provided feedback in a timely fashion.					
Demonstrated good communication skills with Program faculty, fellow staff members, medical professionals, and students.					
Clinical Preceptor Educational Abilities	Strongly Agree	Agree	Disagree	Strongly Disagree	Not Observed
Knowledgeable about chosen profession.					
Worked to stay up-to-date on new information/clinical skills.					
Encouraged the development of students' critical thinking skills.					

Employed evidence-based practice based on clinical and patient outcomes during the course / rotation.					
Demonstrated understanding of Nursing Program coursework and practicum courses.					
Made themselves available to Students outside of the course / rotation.					
Clinical Site	Strongly Agree	Agree	Disagree	Strongly Disagree	Not Observed
Adhered to Limestone University and Nursing Program policies and procedures.					
Adhered to professional and facility policies and procedures.					
Provided a stimulating learning environment.					
Provided Students with adequate instructional and/or clinical supplies/equipment.					
Policies and procedures of the facility were thoroughly explained.					
Provided Students with the appropriate training, which enabled them to better function at the facility.					
Provided for student safety					
Provided Students exposure to new information, equipment, and techniques.					
Provided a supervised atmosphere where Students could integrate their knowledge through clinical experiences.					

What strengths did you note about the preceptor during this clinical rotation?

Weaknesses? _____

In what ways could this Clinical Preceptor be more effective? _____

What did you think about this clinical experience / rotation? _____

Should the Nursing Program continue to utilize this site? _____

Program Evaluation of Clinical Site and Clinical Preceptor

Clinical Site Name: _____

Clinical Preceptor: _____

Semester / Year: _____

Instructions: This evaluation is to be completed by a Nursing faculty member on an annual basis. Please elaborate on items marked "Disagree" or below.

Clinical Site	Strongly Agree	Agree	Disagree	Strongly Disagree	Not Observed
Provided the Students with preceptor supervision at all times.					
Provided Students with adequate supplies and/or equipment (including but not limited to appropriate universal precaution materials).					
Provided the Program with access to and documentation of an up-to-date Emergency Action Plan for all pertinent facilities.					
Provided the Program with access to and documentation of an up-to-date Blood borne Pathogen Exposure Control Plan.					
Provided the Program with access to and documentation of an up-to-date Communicable Disease Policy.					
Provided the Program with access to and documentation of the facility's policies and procedures.					
Provided all parties appropriate and timely feedback					
Communicated regularly with the Program faculty / director.					
Provided the Students with a safe and stimulating learning environment.					
Provided Students exposure to new information, equipment, and techniques.					
Professional Attributes	Strongly Agree	Agree	Disagree	Strongly Disagree	Not Observed
Required respect from others.					
Demonstrated the quality of being respectful towards others.					
Demonstrated confidence in professional abilities.					
Adhered to facility dress code.					
Adhered to professional and facility policies and procedures.					
Displayed a positive attitude towards the employment setting.					

Demonstrated enthusiasm towards the profession.					
Promoted professional development and awareness.					
Demonstrated a good rapport with faculty, fellow staff members, medical professionals, and Students.					
Communication Skills	Strongly Agree	Agree	Disagree	Strongly Disagree	Not Observed
Clearly stated rules and expectations for clinical experience/rotation; Provided appropriate orientation.					
Encouraged Students to engage in discussion about relevant topics and always to ask questions.					
Dealt with problems quickly.					
Corrected individuals in a professional manner.					
Provided feedback in a timely fashion					
Demonstrated good communication skills with faculty, fellow staff members, medical professionals, and Students.					
Educational Abilities	Strongly Agree	Agree	Disagree	Strongly Disagree	Not Observed
Knowledgeable about their profession.					
Worked to stay up-to-date on new information/clinical skills.					
Encouraged the development of Students critical thinking skills.					
Employed evidence-based practice based on clinical and patient outcomes during the course/rotation.					
Provided ample opportunity for application of knowledge					
Demonstrated understanding of and compliance with Nursing Program policies and procedures.					
Demonstrated understanding of Nursing Program practicum course objectives.

Limestone University Weekly Clinical Evaluation of Student

Student Name: _____ Semester / Year: _____
 NU Course Practicum: _____

Instructions: Clinical instructors, please complete based on your weekly interactions with the BSN student during assigned clinical time period. Please sign and return to the course instructor at the end of the course.

Evaluation scale: P= Proficient, D= Developing, U= Unsatisfactory, NO= Not observed

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
Domain 1 knowledge for nursing practice															
1.1 Demonstrate an understanding of the discipline of nursing's distinct perspective and where shared perspectives exist with other disciplines															
Identify concepts, derived from theories from nursing and other disciplines, which distinguish the practice of nursing. (1.1a)															
Apply knowledge of nursing science that develops a foundation for nursing practice (1.1b)															
Understand the historical foundation of nursing as the relationship developed between the individual and nurse. (1.1c)															
Articulate nursing's distinct perspective to practice (1.1d)															
1.2 Apply theory and research-based knowledge from nursing, the arts, humanities, and other sciences.															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
Apply or employ knowledge from nursing science as well as the natural, physical, and social sciences to build an understanding of the human experience and nursing practice. (1.2a)															
Demonstrate intellectual curiosity (1.2b)															
Demonstrate social responsibility as a global citizen who fosters the attainment of health equity for all (1.2c)															
Examine influence of personal values in decision making for nursing practice. (1.2d)															
Demonstrate ethical decision making (1.2e)															
1.3 Demonstrate clinical judgment founded on a broad knowledge base															
Demonstrate clinical reasoning. (1.3a)															
Integrate nursing knowledge (theories, multiple ways of knowing, evidence) and knowledge from other disciplines and inquiry to inform clinical judgment (1.3b)															
Incorporate knowledge from															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
nursing and other disciplines to support clinical judgement (1.3c)															
Domain 2 Person centered care															
2.1 Engage with the individual in establishing a caring relationship															
Demonstrates empathy (2.1a)															
Demonstrates compassionate care (2.1b)															
Establishes mutual respect with individual & family (2.1c)															
2.2 Communicate effectively with individuals															
Demonstrate relationship-centered care (2.2a)															
Considers individual beliefs, values, and personalized information in communications (2.2b)															
Use a variety of communication modes appropriate for the context. (2.2c)															
Demonstrates the ability to conduct sensitive or difficult conversations (2.2d)															
Use evidence-based patient teaching materials, considering health literacy, vision, hearing, and cultural sensitivity (2.2e)															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
2.3 Integrate assessment skills in practice															
Create an environment during assessment that promotes a dynamic interactive experience (2.3a)															
Obtain a complete and accurate history in a systematic manner (2.3b)															
Perform clinically relevant, holistic health assessment (2.3c)															
Perform point of care screening / diagnostic testing (e.g. blood glucose, PO2, EKG) (2.3d)															
Distinguish between normal and abnormal health findings (2.3e)															
Apply nursing knowledge to gain a holistic perspective of the person, family, community, population (2.3f)															
Communicate findings of a comprehensive assessment (2.3g)															
2.4 Diagnose actual or potential health problems and needs															
Synthesize assessment data in the context of the individual's current preferences, situation, and experience (2.4a)															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
Create a list of problems / health concerns (2.4b)															
Prioritize problems / health concerns (2.4c)															
Understand and apply the results of social screening, psychological testing, lab data, imaging results, and other diagnostic tests in actions and plans of care (2.4d)															
Contribute as a team member to the formation and improvement of diagnoses. (2.4e)															
2.5 Develop a plan of care															
Engage the individual and team in plan development (2.5a)															
Organize care based on mutual health goals (2.5b)															
Prioritize care based on best evidence (2.5c)															
Incorporate evidence-based intervention to improve outcomes and safety (2.5d)															
Anticipate outcomes of care (expected, unexpected, and potentially adverse) (2.5e)															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
Demonstrate rationale for plan (2.5f)															
Address individuals' experiences and perspectives in designing plans of care (2.5g)															
2.6 Demonstrate accountability for care delivery															
Implement individualized plan of care using established protocols (2.6a)															
Communicate care delivery through multiple modalities (2.6b)															
Delegate appropriately to team members (2.6c)															
Monitor the implementation of plan of care (2.6d)															
2.7 Evaluate outcomes of care															
Reassess to evaluate goals (2.7a)															
Modify plan of care as needed (2.7b)															
Recognize the need for modifications to standard practice (2.7c)															
2.8 Promote self-care management															
Assist the individual to engage in self-care (2.8a)															
Employ individualized educational strategies based on															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
learning theories, methodologies, and health literacy (2.8b)															
Educate individuals and families regarding self-care for health promotion, illness prevention, and illness management (2.8c)															
Respect individuals and families' self-determination in their healthcare decisions (2.8d)															
Identify personal, system, and community resources available to support self-care management (2.8e)															
2.9 Provide care coordination															
Facilitate continuity of care based on assessment of assets and needs (2.9a)															
Communicate with relevant stakeholders across health systems (2.9b)															
Promote collaboration by clarifying responsibilities among individual, family, and team members (2.9c)															
Recognize when additional expertise															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
and knowledge is needed to manage patient (2.9d)															
Provide coordination of care of individuals and families in collaboration with care team (2.9e)															
Domain 3 Population Health															
3.1 Manage Population Health															
Define a target population (3.1a)															
Assess population health data (3.1b)															
Assess the priorities of the community and / or the affected clinical population (3.1c)															
Compare and contrast local, regional, national, and global benchmarks to identify health patterns across populations. (3.1d)															
Apply an understanding of the public health system and its interfaces with clinical health care in addressing population health needs (3.1e)															
Develop an action plan to meet an identified need, including evaluation methods (3.1f)															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
Participate in the implementation of sociocultural and linguistically responsive interventions (3.1g)															
Describe general principles and practices for the clinical management of populations across the age continuum (3.1h)															
Identify ethical principles to protect the health and safety of diverse populations (3.1i).															
3.2. Engage in effective partnerships															
Engage with other health professionals to address population health issues (3.2a)															
Demonstrate effective collaboration and mutual accountability with relevant stakeholders (3.2b)															
Use culturally and linguistically responsive communication strategies (3.2c)															
3.3 Consider the socioeconomic impact of the delivery of health care															
Describe assess and equity implications of proposed interventions (3.3a)															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
Prioritize patient-focused and / or community action plans that are safe, effective, and efficient in the context of available resources (3.3b)															
3.4 Advance equitable population health policy															
Describe policy development process (3.4a)															
Describe the impact of policies on population outcomes, including social justice and health equity (3.4b)															
Identify best evidence to support policy development (3.4c)															
Propose modifications to or development of policy based on population findings (3.4d)															
Develop an awareness of the interconnectedness of population health across borders. (3.4e)															
3.5 Demonstrate Advocacy strategies															
Articulate a need for change (3.5a)															
Describe the intent of the proposed change. (3.5b)															
Define stakeholders, including members															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
of the community and / or clinical populations, and their level of influence (3.5c)															
Implement messaging strategies appropriate to audience and stakeholders (3.5d)															
Evaluate the effectiveness of advocacy actions (3.5e)															
3.6 Advance preparedness to protect population health during disasters and public health emergencies															
Identify changes in conditions that might indicate a disaster or public health emergency (3.6a)															
Understand the impact of climate change on environmental and population health (3.6b)															
Describe the health and safety hazards of disasters and public health emergencies (3.6c)															
Describe the overarching principles and methods regarding personal safety measures, including personal protective equipment (3.6d)															
Implement infection control measures															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
and proper use of PPE (3.6e)															
Domain 4 Scholarship for the nursing discipline															
4.1 Advance the scholarship of nursing															
Demonstrate an understanding of different approaches to scholarly practice (4.1a)															
Demonstrate application of different levels of evidence (4.1b)															
Apply theoretical frameworks / models in practice (4.1c)															
Demonstrate and understanding of basic elements of the research process (4.1d)															
Participate in scholarly inquiry as a team member (4.1e)															
Evaluate research (4.1f)															
Communicate scholarly findings (4.1g)															
4.2 Integrate best evidence into nursing practice															
Evaluate clinical practice to generate questions to improve nursing care (4.2a)															
Evaluate appropriateness and strength of the evidence. (4.2b)															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
Use best evidence in practice (4.2c)															
Participate in the implementation of a practice change to improve nursing care (4.2d)															
Participate in the evaluation of outcomes and their implications for practice (4.2e)															
4.3 Promote the ethical conduct of scholarly activities															
Explain the rationale for ethical research guidelines, including IRB guidelines (4.3a)															
Demonstrate ethical behaviors in scholarly projects including quality improvement and EBP initiatives (4.3b)															
Advocate for protection of participants in the conduct of scholarly activities (4.3c)															
Recognize the impact of equity issues in research (4.3d)															
Domain 5 Quality & Safety															
5.1 Apply quality improvement principles in care delivery															
Recognize nursing's essential role in improving healthcare quality and safety (5.1a)															
Identify sources & applications of															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
national safety and quality standards to guide nursing practice (5.1b)															
Implement standardized, evidence-based processes for care delivery (5.1c)															
Interpret benchmark and unit outcome data to inform individual and microsystem practice (5.1d)															
Compare quality improvement methods in the delivery of patient care (5.1e)															
Identify strategies to improve outcomes of patient care in practice (5.1f)															
Participate in the implementation of practice change (5.1g)															
Develop a plan for monitoring quality improvement change (5.1h)															
5.2 Contribute to a culture of patient safety															
Describe the factors that create a culture of safety (5.2a)															
Articulate the nurse's role within an interprofessional team in promoting safety and preventing errors															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
and near misses (5.2b)															
Examine basic safety design principles to reduce risk of harm (5.3c)															
Assume accountability for reporting unsafe conditions, near misses, and errors to reduce harm (5.2d)															
Describe processes used in understanding causes of error (5.2e)															
Use national patient safety resources, initiatives, and regulations at the point of care (5.2f)															
5.3 Contribute to a culture of provider and work environment safety															
Identify actual and potential level of risks to providers within the workplace (5.3a)															
Recognize how to prevent workplace violence & injury (5.3b)															
Promote policies for prevention of violence and risk mitigation (5.3c)															
Recognize one's role in sustaining a just culture reflecting civility and respect (5.3d)															
Domain 6 Interprofessional partnerships															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
6.1 Communicate in a manner that facilitates a partnership approach to quality care delivery															
Communicate the nurse's roles and responsibilities clearly (6.1a)															
Use various communication tools and techniques effectively (6.1b)															
Elicit the perspectives of team members to inform person-centered care decision making (6.1c)															
Articulate impact of diversity, equity, and inclusion on team-based communications (6.1d)															
Communicate individual information in a professional, accurate, and timely manner (6.1e)															
Communicate individual information in a professional, accurate and timely manner (6.1f)															
6.2 Perform effectively in different team roles, to facilitate effective team functioning															
Apply principles of team dynamics, including team roles, to facilitate effective team functioning (6.2a)															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
Delegate work to team members based on their roles and competency (6.2b)															
Engage in the work of the team as appropriate to one's scope of practice & competency (6.2c)															
Recognize how one's uniqueness (as a person and a nurse) contributes to effective interprofessional working relationships (6.2d)															
Apply principles of team leadership and management, performance to improve quality and assure safety (6.2e)															
Evaluate performance of individual and team to improve quality and promote safety (6.2f)															
6.3 Use knowledge of nursing and other professions to address healthcare needs															
Integrate the roles and responsibilities of healthcare professionals through interprofessional collaborative practice (6.3a)															
Leverage roles and abilities of team members to optimize care (6.3b)															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
Communicate with team members to clarify responsibilities in executing plan of care (6.3c)															
6.4 Work with other professions to maintain a climate of mutual learning, respect, and shared values															
Demonstrate an awareness of one's biases and how they may affect mutual respect and communication with team members (6.4a)															
Demonstrate respect for the perspectives and experiences of other professions (6.4b)															
Engage in constructive communication to facilitate conflict management (6.4c)															
Collaborate with interprofessional team members to establish mutual healthcare goals for individuals, communities, or populations (6.4d)															
Domain 7 System-based practice															
7.1 Apply knowledge of systems to work effectively across the continuum of care															
Describe organizational structure, mission, vision, philosophy, and values. (7.1a)															
Explain the relationships of															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
macrosystems, mesosystems, and microsystems.(7.1b)															
Differentiate between various healthcare delivery environments across the continuum of care (7.1c)															
Recognize internal and external system processes that impact care coordination and transition of care (7.1d)															
7.2 Incorporate consideration of cost-effectiveness of care															
Describe the financial and payment models of health care (7.2a)															
Recognize the impact of health disparities and social determinants of health on care outcomes (7.2b)															
Describe the impact of healthcare cost and payment models on the delivery, access, and quality of care (7.2a)															
Explain the relationship of policy, regulatory requirements, and economics on care outcomes (7.2b)															
Incorporate considerations of															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
efficiency, value, and cost in providing care (7.2c)															
Identify the impact of differing system structures, leadership, and workforce needs on care outcomes (7.2d)															
7.3 Optimize system effectiveness through application of innovation and evidence-based practice															
Demonstrate a systematic approach for decision-making (7.3a)															
Use reported performance metrics to compare/monitor outcomes (7.3b)															
Participate in evaluating system effectiveness (7.3c)															
Recognize internal and external system processes and structures that perpetuate racism and other forms of discrimination within health care (7.3d)															
Domain 8 Informatics and healthcare technologies															
8.1 Describe the various information and communication technology tools used in the care of patients, communities, and populations															
Identify the variety of information and communication technologies used in care settings. (8.1a)															
Identify the basic concepts of															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
electronic health, mobile health, and telehealth systems for enabling patient care (8.1b)															
Effectively use electronic communication tools (8.1c)															
Describe the appropriate use of multimedia applications in health care (8.1d)															
Demonstrate best practice use of social networking applications (8.1e)															
Explain the importance of nursing engagement in the planning and selection of healthcare technologies (8.1f)															
8.2 Use information and communication technology to gather data, create information, and generate knowledge															
Enter accurate data when chronicling care (8.2a)															
Explain how data entered on one patient impacts public and population health data (8.2b)															
Use appropriate data when planning care (8.2c)															
Demonstrate the appropriate use of health information literacy															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
assessments and improvement strategies (8.2d)															
Describe the importance of standardized nursing data to reflect the unique contribution of nursing practice (8.2e)															
8.3 Use information and communication technologies and informatics processes to deliver safe nursing care to diverse populations in a variety of settings.															
Demonstrate appropriate use of information and communication technologies (8.3a)															
Evaluate how decision support tools impact clinical judgement and safe patient care (8.3b)															
Use information and communication technology in a manner that supports the nurse-patient relationship (8.3c)															
Examine how emerging technologies influence healthcare delivery and clinical decision making (8.3d)															
Identify impact of information and communication technology on quality and safety of care (8.3e)															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
Identify the importance of reporting system processes and functional issues (error messages, mis-directions, device malfunctions, etc.) according to organizational policies and procedures (8.3f)															
8.4 Use information and communication technology to support documentation of care and communication among providers, patients, and all system levels															
Explain the role of communication technology in enhancing clinical information flows. (8.4a)															
Describe how information and communication technology tools support patient and team communications. (8.4b)															
Identify the basic concepts of electronic health, mobile health, and telehealth systems in enabling patient care. (8.4c)															
Explain the impact of health information exchange, interoperability, and integration on health care. (8.4d)															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
Domain 9 Professionalism															
9.1 Demonstrate an ethical comportment in one's practice reflective of nursing's mission to society															
Apply principles of professional ethics and human rights in patient care and professional situations (9.1a)															
Reflect on one's actions and their consequences (9.1b)															
Demonstrate ethical behaviors in practice (9.1c)															
Change behavior based on self and situational awareness (9.1d)															
Report unethical behaviors when observed (9.1e)															
Safeguard privacy, confidentiality, and autonomy in all interactions (9.1f)															
Advocate for the individual's right to self-determination (9.1g)															
9.2 Employ participatory approach to nursing care															
Employ the use of intentional presence to facilitate shared meaning of the experience between nurse and recipient of care (9.2a)															
Facilitate health and healing through compassionate care (9.2b)															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
Demonstrate empathy to the individual's life experience (9.2c)															
Advocate for practices that advance diversity, equity, and inclusion (9.2d)															
Demonstrate cultural sensitivity and humility in practice (9.2e)															
Apply principles of therapeutic relationships and professional boundaries (9.2f)															
Communicate in a professional manner (9.2g)															
9.3 Demonstrate accountability to the individual, society, and the profession															
Engage in advocacy that promotes the best interest of the individual, community, and profession (9.3a)															
Demonstrate the moral courage to report concerns related to actual or potential hazards and/or errors (9.3b)															
Demonstrate personal and professional honesty and integrity (9.3c)															
Take responsibility for one's roles, decisions,															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
obligations, actions, and care outcomes (9.3d)															
Engage in professional activities and / or organizations (9.3e)															
Demonstrate adherence to a culture of civility (9.3f)															
Advocate for social justice and health equity, including addressing the health of vulnerable populations (9.3g)															
Engage in peer evaluation (9.3h)															
9.4 Comply with relevant laws, policies, and regulations															
Advocate for policies that promote health and prevent harm (9.4a)															
Adhere to the registered nurse scope and standards of practice (9.4b)															
Adhere to regulatory requirements and workplace policies consistent with one's educational preparation (9.4c)															
9.5 Demonstrate the professional identity of nursing															
Describe nursing's professional identity and contributions to the healthcare team (9.5a)															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
Demonstrate the core values of professional nursing identity (9.5b)															
Demonstrate sensitivity to the values of others (9.5c)															
Demonstrate ethical comportment and moral courage in decision making and actions (9.5d)															
Demonstrate emotional intelligence (9.5e)															
9.6 Integrate diversity, equity, and inclusion as core to one's professional identity															
Demonstrate respect for diverse individual differences and diverse communities and populations (9.6a)															
Demonstrate awareness of personal and professional values and conscious and unconscious biases (9.6b)															
Integrate core principles of social justice and human rights into practice (9.6c)															
Domain 10 Leadership															
10.1 Demonstrate a commitment to personal health and well-being															
Demonstrate healthy, self-care behaviors that promote wellness															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
and resiliency (10.1a)															
Manage conflict between personal and professional responsibilities (10.1b)															
10.2 Demonstrate a spirit of inquiry that fosters flexibility and professional maturity															
Engage in guided and spontaneous reflection of one's practice (10.2a)															
Integrate comprehensive feedback to improve performance (10.2b)															
Commit to personal and professional development (10.2c)															
Expand personal knowledge to inform clinical judgment (10.2d)															
Identify role models and mentors to support professional growth (10.2e)															
Participate in ongoing activities that embrace principles of diversity, equity, inclusion, and anti-discrimination (10.2f)															
10.3 Develop capacity for leadership															
Compare and contrast leadership principles and theories (10.3a)															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
Formulate a personal leadership style (10.3b)															
Demonstrate leadership behaviors in professional situations (10.3c)															
Demonstrate self-efficacy consistent with one's professional development (10.3d)															
Use appropriate resources when dealing with ambiguity (10.3e)															
Modify one's own leadership behaviors based on guided self-reflection (10.3f)															
Demonstrate self-awareness of one's own implicit biases and their relationship to one's culture and environment (10.3g)															
Communicate a consistent image of the nurse as a leader (10.3h)															
Recognize the importance of nursing's contributions as leaders in practice and policy issues (10.3i)															
Miscellaneous															

Criteria	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12	W13	W14	Comments
Arrives on time and prepared for clinical															
Demonstrates professional dress & behavior

Appendix H Nursing Handbook Agreement

I, _____ (print name), have thoroughly read and understand all of the policies, procedures, and conditions that are set forth in the BSN Handbook. I have been given ample opportunity to have any and all of my questions answered regarding the policies, procedures, and conditions of Limestone University's Nursing Program. Furthermore, my signature on this document signifies that I agree to comply with all of the policies, procedures, and conditions in this Handbook, and I authorize the release of pertinent personal information and documentation by the Nursing Program to applicable parties as related to my education. This includes, but is not limited to, the Office of Academic Affairs, Office of Student Services, and/or Affiliate Clinical Sites. I am aware that at any time if I am in violation of the policies, procedures, and/or conditions set forth in this Handbook, that disciplinary procedures may be invoked. I am also aware, that if I choose to leave or are dismissed from the Nursing, I forfeit all scholarships awarded through the Nursing Program.
