Analysis: (N=5) Limestone University Teacher Education averages were significantly below state averages in only 4 of 29 categories. Within the 4 categories, Standards and Objectives and Instructional Plans continued to trend downward. Standards and Objectives failed to meet the goal of 3,000.

We understand that with n=26 graduates evaluated over three years and n=5 in 2021-2022, our populations are very small and subject to an inordinate impact from a single evaluation. We do see a problematic trend in Standards and Objectives. We are currently discussing a plan to revise instruction of both Standards and Objectives and Instructional Plans by expanding methods classes from 3 to 6 hours. We continue to be very pleased with the increases we have seen in professionalism. Professionalism has been a point of emphasis for our programs during the last three years.
