The Student Success Collaborative includes two platforms - NAVIGATE and NAVIGATE STUDENT that aim to increase retention and graduation rates by improving student achievement. Developed by the Education Advisory Board (EAB), the program combines technology and best practice research to help institutions assist students on their educational journeys.

**NAVIGATE**

Navigate is a computer-based teaching tool for faculty and staff. Navigate provides student specific information in real time that can be accessed by administrators, advisors, deans, faculty, and staff in a coordinated care network designed to help pro-activity manage student success and deliver a return on education.

**STUDENT RISK DATA**

Predictive analytics and real time academic and behavioral data identify student at-risk for attrition. Includes pre-enrollment information, student demographics, course registrations, academic records, and transfer articulation.

**PROACTIVE INTERVENTIONS**

Communication tools designed to extend the reach of advisors and facilitate engagement with students.

**CAMPUS-WIDE CASE MANAGEMENT**

Advisors coordinate student care, refer them to support services, and receive reports to close the loop.

**CENTRAL REPORTING**

Use and effectiveness reports allow administrators to make continuous improvements to services.
